Now booking Television & Radio Interviews on location prior to and during the event: September 9-10, 2005, Green Valley Ranch Resort & Spa, 2300 Paseo Verde, Henderson, NV 89052

The Power to Win seminar will explain in great detail how the latest and most leading-edge scientific principles prove that the life and realm you create are totally in your control. Learn how quantum physics principles can be applied, by anyone, to proven wealth-building techniques. Ray will also cover why people who are successful in one area of their life tend to be successful in all areas. This phenomenon is otherwise known as a state of total Harmonic Wealth, a deep-down piece of mind that comes with true and complete financial, relational, mental, physical and spiritual wealth.

Ray of James Ray International has been speaking to individuals as well as Fortune 500 companies for over two decades and is the author of four books and numerous learning systems. His studies of highly successful people prove that they continually achieve results by mastering the Newtonian world of consistent, powerful action as well as the quantum world of consciousness and intention. Only when specific strategies are applied consistently in both areas, are results guaranteed.

Ray has helped thousands of individuals and organizations build true Harmonic Wealth to accelerate their personal and business growth. This event is designed to show you exactly how to create abundance and success in every area of your life. He goes above and beyond the traditional success program workshop and introduces you to a personal wealth building system that will teach you how reach your goals and be more successful and fulfilled in your life.

Ray is one of few spiritual teachers who has achieved top honors in the business world and created tremendous success as a thriving entrepreneur. His background in behavioral sciences and entrepreneurship, coupled with his spiritual quest gives him a unique and powerful ability to address life issues at an integrated and comprehensive level. Ray recently was awarded the coveted CSP designation, the highest earned honor in the speaking profession. Fewer than 7% of the professional speakers and authors in the world have received this honor. The secret to Ray's success is his ability to take the seemingly complex and break it into manageable, understandable and memorable strategies for improvement.
